PoE Extender

WI-PE31E | WI-PE51E | WI-PE31G | WI-PE51G | WI-PE21G

Extender

Wi-Tek PoE Extender can extend both the Ethernet Data and IEEE 802.3at/bt power over Ethernet transmission distance over the standard 100m (328 ft.) Cat. 5/5e/6 UTP cable to 200m, 300m, 400m and the maximum 550m. Some of them come with 250-meter-long distances via Extend

Mode. Some of the downlink ports are isolated from each other but can communicate with uplink ports via VLAN Mode.

Key Features

- ·High power PoE output
- ·Compatible with 802.3af/at/bt PoE powered devices
- ·250m long distance for PoE ports
- ·Port isolation for security
- ·Support desktop mount and wall mount
- ·Plug and play, zero configuration
- ·Forwards both Ethernet data and PoE power to remote device
- ·Cost-effective to extend your network
- ·Support desktop mount and wall mount
- ·Plug and play, zero configuration
- ·Forwards both Ethernet data and PoE power to remote device
- ·Cost-effective to extend your network

Specifications

Off: PoE not working

is limited to 10Mbps

On: The transmission of PoE output ports can be up to 250m, but the rate
